

Ficha Técnica de Producto

AUDAZ LEMON

Concentrated degreaser

DESCRIPTION

Concentrated liquid product with high emulsifying power, which dissolves greases and filthiness. Suitable for surfaces resistant to alkaline pH: floors, walls, work tables, tools and equipment.

FORM OF USE

It can be used undiluted in strong filthiness, but in the majority of cases it is sufficient to use it diluted between 5% and 10% into water.

Surfaces: Dilute 5-10% of the product in water. Rub with a scourer or damp cloth. Leave to work, rinse with water and let dry.

Floors: Dilute 0.5-1% of the product in water. Wash in the usual way.

Cleanliness by soak: Soak in a solution of 5 to 10% of product per liter of hot water. Scrub or brush to remove strong grease. Rinse with water let dry.

It works indistinctly in hot or cold temperatures. Precautions should be taken in hot because of the risks of inhaling irritant steams.

Note: Do not use on iron nor aluminium.

TECHNICAL CHARACTERISTICS

Aspect: Liquid.

Color: Yellow.

Smell: Lemon.

pH pure: 12.5-13.5.

Solubility: Water soluble.

Density: 1,00 – 1,04 g/cc.

Active substance concentration: 12-15%

COMPOSITION

Tensioactives, amines, caustics, sequestrating, emulsives, color and fragrance.

PRESENTATION

Plastic containers:

FORMAT	1 kg	5 kg
CODE	004ALE01	004ALE05

SECURITY/TOXICOLOGY

Causes severe skin burns and eye damage.

Wear protective gloves/protective clothing/eye protection/face protection.

ADDITIONAL INFORMATION

Industrial product. Restricted to professional users.

Commercial information. For the handle and use of product, follow the indications of the label and the MSDS.
