FORM OF USE

Before using the product read the label carefully. Do not apply on food or kitchen utensils. Use neat and apply by spraying (approx. 20 cm away), immersion, cloth or mop. Leave to act for at least 5 minutes, wipe with a scouring pad, cloth or paper to drag the remaining dirt or contamination until it is dry. The treated or exposed surfaces that will be in contact with people, food or feed should be rinsed with drinking water. Avoid contact with treated or exposed surfaces. Before applying the product, a thorough cleaning must be carried out. Ventilate adequately after performing disinfection treatment. Do not mix with other chemical products. Incompatible with organic matter, anionic detergents, ammonia derivatives and hypochlorites, chromium, lead, aluminum, tin, zinc and their alloys (bronze, brass, etc). A pre-treatment test should be performed to verify the compatibility of the product with the materials. Do not throw on unpaved floors, in water courses. Keep the product in its original container and do not reuse the container. Empty containers, product remains and other residues generated during application are considered hazardous waste. Dispose of such waste in accordance with current regulations.

TECHNICAL CHARACTERISTICS

Aspect: Thick liquid
Colour: Blue.
Smell: Fragrance.
pH pure: 8.5-9.5
Density: 0,98 ± 0,2 g/cc

COMPOSITION

Isopropanol (10.30%)
Didecyldimethylammonium chloride (1.00%)
Excipients (q.s.p. 100%)

PRESENTATION

FORMAT	Boxes 12 x 1 L
CODE	005DVI01
